

PREMIUS®

HIGH BAY

LAMP COMPARTMENT
IP 20

ELECTRIC COMPARTMENT
IP 55

RANGE

A highbay designed to provide highly efficient and even illumination with the use of 150W/250W/400W HPS, 250W/400W MBI and MBF lamps.

APPLICATIONS

The need of low-to-medium mounting heights are efficiently and economically realised by the exceptionally attractive Premium® range. The efficient size and optical performance of Premium, and give an exceptionally hi-tech look to high street shops, supermarkets, shopping malls and restaurants.

CONSTRUCTION

The body which houses the control gear and the lamp holder, is made of die-cast aluminium and finished in durable powder coated polyester black paint. The gear tray is made of heavy gauge zinc coated sheet of steel. The refractor is made of impact and heat resistant polycarbonate.

ELECTRICAL

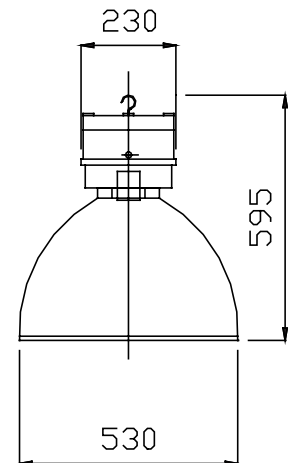

The control gear compartment can be easily accessed by unscrewing four stainless steel screws.

MECHANICAL

A suspension hook located on top of the gear box is provided for suspension to the ceiling.

SPECIFICATION

Designed in accordance with the following Standards: CEI 34-21 and EN60598-1.
