

ARKA®

CORROSION RESISTANT, WEATHER AND VANDAL PROOF INDOOR and OUTDOOR FITTING.

RANGE

This non corrosive compact fitting is suitable for different types of energy saving lamps, i.e. compact fluorescent 11W, 18W, 2x11W and 2x18W lamps.

APPLICATIONS

The ARKA range is suitable for outdoor and indoor use, and specially suitable for corridors, balconies, porches, security, amenity, under canopy, gardens and staircases.

CONSTRUCTION

The body and diffuser are made of injection molded heat and impact resistant polycarbonate to provide the ultimate in vandal resistance. An extremely efficient polyurethane gasket is injected into the luminaire body in order to achieve a high ingress protection (IP65).

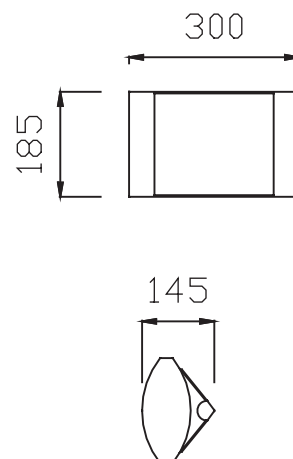

ELECTRICAL

The zinc coated gear tray is supplied with a three pole terminal block. High temperature silicon insulated conductors are used throughout.

SPECIFICATION

Designed in accordance with relevant European Standards.

LAMP COMPARTMENT
IP 65
