

SYMMETRIC AND ASYMMETRIC CORROSION RESISTANT WEATHER PROOF FITTING

RANGE

Alba® is a versatile weather proof and non corrosive floodlight that can accommodate 150W/250W/400W/ HPS, 250W/400W MBI and MBF lamps.

APPLICATIONS

Alba® is suitable for medium and large areas where there is need for long period or round the clock floodlighting such as; petroleum platforms, large car parks, building sites, sport fields, exhibition halls, general storage and stations. Alba® is highly recommended for sites near the sea.

CONSTRUCTION

Made of injection moulded high quality impact and heat resistant self black coloured Polycarbonate. The lamp and control gear compartments are thermally separated. An extremely efficient silicon gasket provides IP 65 ingress protection. The reflector is made of high purity aluminium in order to maximize light output. All external screws are made of stainless steel.

ELECTRICAL

The control gear box is provided with a cable gland and a 2-way terminal block. High temperature silicon insulated conductors are used throughout.

MECHANICAL

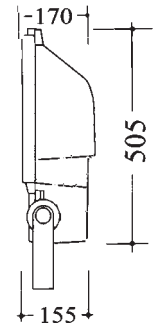

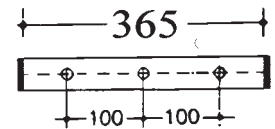

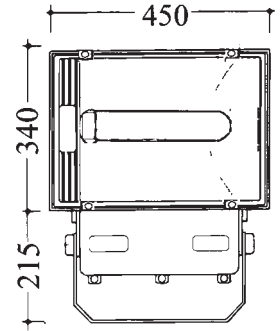

Mounting is via a painted steel bracket which is provided.

ACCESSORIES

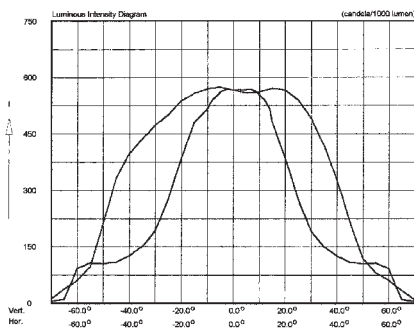

Wire Guard: A steel wire guard is available to protect the glass cover from impact damage.

SPECIFICATION

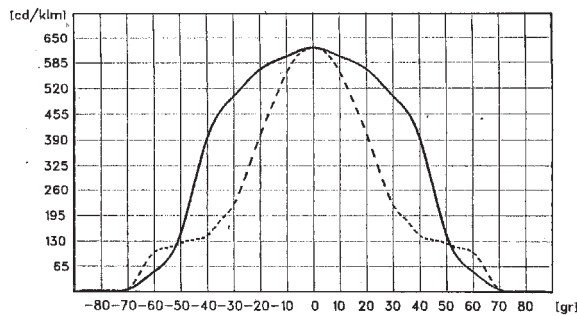

Designed in accordance with the following Standards: CEI 34-21 and EN60598-1
